

“A new *Concezione of cuisine*
that starts from *Sicily* and evolves,
taking on *new forms*”.

A handwritten signature in black ink, reading "Manuel Trapani". The script is fluid and cursive, with the first letter 'M' being particularly large and stylized.

CONCEZIONE

MANUEL TROPEA • RESTAURANT

To the rhythm of what the land and sea offer us.

We work with small local farmers and breeders: fish of overlooked species caught by hook, meats from extensive farming, organic vegetables, wild herbs, bread made from ancient Sicilian grains.

Nothing goes to waste: scraps return to the plate through fermentation, preserving and drying.

An avant-garde Catanian cuisine.
Rooted and concrete.

La Concezione *dello Chef*

Stories of identity.

The restaurant celebrates its own history with a journey that pays homage to the dishes that have marked its path since the very first day.

La Concezione dello Chef is a ten-course menu bringing together the signature dishes most loved by our guests, the most requested and the most acclaimed by critics.

These are recipes that have lived through a metamorphosis: they have changed shape and presentation but have never lost their essence. They have grown together with the restaurant, becoming symbols of continuity and evolution, a testament to a cuisine that never forgets its roots but constantly renews them.

A journey through the memory and identity of Concezione, where the past keeps a dialogue with the present and the imagination.

Concezione Vegetale

A mosaic of colours, an act of awareness.

The Concezione Vegetale journey is an invitation to reflect on the relationship between cuisine, nature and culture.

Several courses that teach respect for the environment and the seasonality of ingredients, turning the convivial moment into an educational experience.

Here cuisine becomes language and a teaching tool: each dish carries an ecological message, fosters food awareness and restores dignity to the land and its cycles.

In a world where food education rarely finds space in schools, Manuel Tropea chooses to pass it on at the table, through responsible choices and genuine ingredients.

The vegetarian menu is a political and cultural act that in 2025 placed Concezione among the finest restaurants according to the international We're Smart guide, with a recognition of 4 radishes out of 5.

An award that urges us to choose, every day, a more conscious future.
